

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### **Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

# REPORT

ALBANY, N. Y., *January 15, 1919*

*To the Governor:*

In accordance with the requirement of the Civil Service Law, we submit report for the year 1918, being the thirty-sixth report of the department.

The personnel of the Commission has remained unchanged, and with some minor adjustments of positions, the staff of employees has been continued. Mr. William V. Fonda, one of the Commission's examiners, died October 30th after a brief illness with influenza, and we take this opportunity to express our appreciation of the capable and efficient service of Mr. Fonda during his connection with the department for nearly five years. Four of the regular employees are at present absent on military service as follows: Walter F. Reilly; Howard F. Lewis; Raymond T. Jones; and William J. Maher.

The Commission has held fifty meetings during the year, of which twenty-nine were in Albany, nineteen in New York, and two in Watertown.

## CLASSIFICATION

According to the best record obtainable 2,212 officers and employees in the state, county and village service, not counting laborers, were absent in military service January 1, 1919. This is an increase of 1,095 as compared with the total number of officers and employees who entered the military service during the year 1917. The following table shows the classification and number of such absentees:

	1917	1918
Unclassified service.....	11	17
Classified service:		
Exempt.....	40	48
Competitive.....	776	1,433
Non-competitive.....	290	714
<b>Totals.....</b>	<b>1,117</b>	<b>2,212</b>

The total number of positions subject to the State Civil Service rules on January 1, 1919, not including laborers, is 19,115, a decrease of 513 as compared with the number of employees on January 1, 1918. This apparent decrease is undoubtedly more than accounted for by the additional 1,095 officers and employees absent on military service January 1, 1919. As these persons have a continued relation to the service, the Commission decided to carry their names in the civil list, and to indicate absence from employment by a star. The names of the 2,212 absentees are not counted in making up the table showing number of positions in the unclassified and classified service on January 1, 1919.

The accompanying table shows the classification of positions January 1, 1919, as compared with that of January 1, 1918, with increase or decrease in each class:

	1918	1919	Increase	Decrease
Unclassified service.....	1,416	1,504	88	.....
Classified service:				
Exempt.....	1,478	1,492	14	.....
Competitive.....	10,405	10,006	.....	399
Non-competitive.....	6,329	6,113	.....	216
Totals.....	19,628	19,115	102	615

Total net decrease, 513.

## CHANGES IN CLASSIFICATION

### *Exempt Class*

During the year seventy-five positions were added to the exempt class, of which number thirteen were mandatory exemptions under the provisions of section 13 of the Civil Service Law. Sixty-one positions, some of which were obsolete or unfilled, were stricken from the exempt class, leaving a net increase of fourteen in the number of exempt places.

This increase is more than accounted for by the exemption of sixteen positions of director, Department of Farms and Markets, made necessary by the reorganization of the Departments of Agriculture, Foods and Markets, and Weights and Measures. Section 27 of the act in relation to Farms and Markets provides in part as follows: "There shall be a director of each bureau, who shall be deemed to occupy a confidential position to the council and the commissioner in charge of the division in which such bureau is included, and may, therefore, be appointed

without competitive examination." It is our opinion that the word "may" in the foregoing provision of the law must be construed as meaning "must," in view of its connection with the other words in the sentence, and that exempt or noncompetitive classification of the position of director of each bureau was, therefore, mandatory upon the commission.

The following table shows the changes in classification of positions in the exempt class during the year 1918:

*Non-competitive Class.*

The non-competitive class includes that large number of positions which fall between the competitive class and the labor class, positions for which some examination is practicable, but because of location, low salary, or otherwise, open competitive examination would not attract candidates. The number of positions, or rather number of titles of positions, added to the non-competitive class is seventy-four, and the number of positions or titles stricken from the non-competitive class is twelve.

The following table shows the changes made in the non-competitive class during the year 1918:

## STATE COLLEGE OF FORESTRY

## SYRACUSE UNIVERSITY

On November 20, 1918, the Attorney-General advised the dean of the New York State College of Forestry, Syracuse University, Syracuse, N. Y., that in his opinion the employees at the college were in the civil service of the State of New York and, therefore, subject to the provisions of the Civil Service law and rules.

Upon receipt of a copy of the Attorney-General's letter on this subject, the Commission arranged a conference with the dean

of the University for the purpose of considering the classification of positions at the College and immediate application of the provisions of the law and rules to the present members of the staff. As the result of this action resolutions were adopted December 12, 1918, and approved by the Governor December 30, 1918, extending the provisions of the Civil Service law and rules to the offices, places and employments at the State College of Forestry, Syracuse University, effective December 16, 1918, and the persons holding positions in the classified service were continued therein without examination in view of the opinion of the Attorney-General rendered in January, 1911.

As the result of this action forty-one positions were added to the civil service of the State. These positions are divided in classification as follows: Unclassified service, 22, being professors, instructors, and directors; classified service, exempt 2, competitive 15, noncompetitive 2.

#### EXAMINATIONS

During the year 1918 there was a total of 17,355 applicants; of these 10,050 applied for open competitive examinations, and 1,290 for promotion competitive examinations. As compared with the year 1917 the total number is less by 3,609.

Total number of open competitive examinations held....	394
Promotion competitive examinations .....	150
Number of provisional appointments .....	660
Number of appointments under Rule VIII, section 10..	571
Number of noncompetitive promotions .....	154
Number of noncompetitive papers rated by the office examiners .....	671
Number of noncompetitive papers rated by local ex- aminers .....	3,823

The considerable increase in the number of provisional appointments under Rule VIII, section 4, and of appointments under Rule VIII, section 10, is explained by the difficulties encountered in securing competitors for places carrying small compensation owing to war conditions. This situation is also reflected in the

large falling off in the total number of competitors in open competitive examinations.

The statistics relating to examinations for the year 1918 as compared with the year 1917 are as follows:

	1917	1918
Open competitive examinations.....	318	394
Promotion competitive examinations.....	152	150
Provisionals.....	483	660
Noncompetitive, Rule VIII, section 10.....	158	702
Noncompetitive papers rated at Albany.....	596	671
Noncompetitive promotion.....	110	159
Noncompetitive papers rated by local boards...	5,443	3,823
Applications for open competitive examinations.	12,281	10,050
Applications for promotion competitive examinations.....	1,893	1,290
	<u>          </u>	<u>          </u>

#### SUSPENSION OF THE RULE REQUIRING COMPETITION

The Commission is authorized by section 15, subdivision 2 of the Civil Service Law, to suspend the rule requiring competition, upon satisfactory evidence that competitive examination in such cases is impracticable. This authority has been exercised in but four cases during the year. There were seven cases of suspension of the rule during the year 1917, five during the year 1916, and three during the year 1915.

The persons appointed without competitive examination during the past year, under the provision of the law referred to, are as follows:

Dr. Mary Schwartz Rose, Columbia University, New York, N. Y., deputy director of conservation bureau, State Food Commission, March 11, 1918, salary at the rate of \$3,000 a year, for not less than three-fourths of her time. Dr. Rose, who was appointed in place of Frederick E. Breithut, similarly excepted from examination during 1917 at salary of \$4,000 a year, had previously been designated as home economics leader for New York city by the United States Food Administration because of

her nation-wide reputation as a teacher in this field, and also because of her valuable service to the home economics section of the United States Food Administration. Dr. Rose is a Fellow of the American Association for the Advancement of Science; a member of the home economics committee of the Charity Organizations Society of New York City, and was a member of the technical advisory committee of the bureau of conservation of the State Food Commission. The employment of Dr. Rose was also approved by Mr. Hoover of the Federal Food Board.

Charles R. Vanneman, Albany, N. Y., engineer of grade crossings, Public Service Commission, Second District, August 1, 1918, \$5,000. Mr. Vanneman is a graduate civil engineer and, at the time, was employed by the Public Service Commission, Second District, as chief of division of steam railroads, \$4,500 a year. The Public Service Commission said that it was its intention to combine the duties of said position with that of engineer of grade crossings during the period of the war, thereby effecting a saving to the State at a time when construction work is necessarily curtailed to some extent. Mr. Vanneman, while employed by the Public Service Commission for eight years, acquired a working knowledge of the railroads throughout the State which was possessed by few persons, and the temporary consolidation of the two positions could not possibly be achieved by appointment of one who had not a broad knowledge of railroad problems and familiarity with the Public Service Law and the details connected with its enforcement. The Commission, however, in suspending the rule requiring competition in this case, provided that the exempt position of chief of division of steam railroads should not be filled during the period of the existing war with the German Empire and its allies.

Albert H. Mowbray, Wollaston, Mass., chief actuary, State Industrial Commission, October 1, 1918, \$6,000. The vacancy in this position was due to the resignation of Joseph H. Woodward, who had been appointed some time before when the position of chief actuary was exempt. The State Industrial Commission certified that it had been advised by persons prominent in the insurance world that it would be almost impossible to secure competitors in an examination owing to the fact that the position

requires a person of such high and recognized attainments as an actuary. Also, that it had been informed by prominent insurance men that Mr. Mowbray possesses the necessary qualifications and is best fitted to fill the position. Mr. Mowbray graduated from the University of California in 1904 with a degree of Bachelor of Arts and honorable mention in mathematics and physics, and soon after he entered the actuarial department of the New York Life Insurance Company. In 1905 he was enrolled, after an examination, as an associate of the Actuarial Society of America, and in 1910, after an examination, was admitted as a Fellow. From April 1907 to September 1908, Mr. Mowbray was actuary of the North Carolina Insurance Department, and from September 1908 to June 1910, was actuary of the California Insurance Department. Upon his resignation from the latter position he was engaged in consulting actuarial practice and as instructor at the University of California in mathematics and insurance. On January 1, 1913, Mr. Mowbray became actuary of the Massachusetts Employees Insurance Association, now the Liberty Mutual Insurance Company, and afterward served as secretary, and later as vice-president of the company.

William B. Landreth, Schenectady, N. Y., consulting engineer, State Engineer and Surveyor, December 16, 1918, compensation at the rate of \$6,000 a year while actually employed. This position became vacant by resignation of Mr. Ripley, who had been appointed under authority of resolution of this Commission adopted February 25, 1916, suspending the requirement as to examination. Mr. Landreth, from 1881 to 1897, was engaged on railroad, paving and general municipal engineering work. In 1897 he entered the department of the State Engineer and Surveyor and was promoted through the various grades, holding the positions of special deputy State engineer and deputy State engineer. His many years' experience on canal construction work gave him exceptional qualifications by training and experience to take up the duties of consulting engineer. Mr. Landreth resigned the position of deputy State engineer to accept the position in question.

## SERVICE RECORD RULES

Chapter 653 of the Laws of 1917, passed May 25, charged the Civil Service Commission with the duty of prescribing and submitting to the Governor for his approval Service Record Rules. The essential provisions of that chapter are as follows:

All departmental agencies of the state government, whether known as departments, institutions, boards, commissions, or otherwise, shall keep and report service records and ratings of employees, for the purpose of recording in terms of quality, quantity, and other factors, the relative efficiency of employees engaged in the same or similar lines of work, under the rules and regulations prescribed by the Civil Service Commission. The Civil Service Commission shall, within nine months after this act takes effect, prescribe suitable rules and regulations for the keeping, reporting, and reviewing of the service records and ratings of employees in the classified service of the state and shall enforce the same. It shall use such service records as a factor in promotional examinations from grade to grade, and as a basis for determining the rendition of satisfactory service necessary for advancement from one rate to another. Such rules and regulations and any modifications thereof shall take effect when approved by the Governor. A personal board shall, when required by the Civil Service Commission, be established in each departmental agency of the government for the purpose of assisting the Civil Service Commission in enforcing the several provisions of the Civil Service law. The members of such boards shall consist of state officers or employees and shall serve without pay. Other conditions governing the membership and conduct of such boards shall be prescribed by the Civil Service Commission.

Immediately after the passage of the Service Record Law a special committee was appointed to proceed in the formulation of rules for submission to the Governor. This committee consisted of Commissioner Rice, who had given much attention to the subject of clerical efficiency in the public service, both when he was a member of the United States Civil Service Commission and since that time.

The general principles proposed by the committee had the careful consideration of the Commission through several months, and were approved by it. Subsequently rules in a tentative form were discussed at a meeting of the National Assembly of Civil Service Commissions, and were submitted to representatives of municipal and other State commissions throughout the country.

As a result, while some minor changes were suggested, the system proposed by this Commission had general approval, and the rules in substantially the existing form were transmitted to the Governor February 21, and approved by him June 28, 1918.

In brief the rules provide for a rating of each employee in the State service subject to promotion. This rating is made by a section chief and is based upon recorded capacity and daily faithfulness in work. The form of the records is subject to approval of the Civil Service Commission. The rules also provide for appeals to a board in which employees are represented and the final decision on ratings rests with the Department head.

Capacity, including accuracy as shown by the employee in the particular work he performs, is the basic element of rating, but the time elements of promptitude and regularity of work are also considered. Capacity has four times as much weight as the time element in the final rating.

During the year personnel boards have been appointed by sixty-six agencies, and of these twenty-six reported ratings for the four months' period ending October 31, 1918. Reports from other boards are now in course of submission.

In its last annual report the State Civil Service Commission expressed itself substantially as follows: That the civilian service of the State ought to be arranged so as to develop a force of highly competent and expert employees cannot be denied. That such development does not ordinarily result under the present conditions is manifest. There are exceptions to the general rule, yet anyone, having even moderate private business experience and looking into the usual clerical service of the administrative, judicial or legislative offices of the State and of our municipalities, which are the greatest corporations that we know, becomes conscious of the lack of the development of minor employees into an efficient body of public servants possessing the spirit and ability to conduct public work with accuracy and rapidity. In

other words, there is no pervasive and thorough-going attempt in these offices to develop among employees qualities of special industry and inventiveness as applied to the work they perform. Thus there is little or no appeal in our public service to ambition except in the matter of salary. It follows that not only is public money often wasted, but what is in reality much more serious, the awakening of employees in the lower grades to do increasingly better work is neglected and the actual development of their faculties and capacities in large measure lies dormant. In a well managed public office knowledge of the best prevailing commercial methods of doing work ought to be stimulated, and acquaintance with and trial of these private methods should constantly improve the transaction of public business.

By its system of service record rules New York State has become the pioneer in the endeavor to apply to public employment some of those principles of recording the comparative value of service among clerical and administrative employees which prevail in the best conducted large private enterprises. Our State is thus not unmindful of its obligations to develop the best service for the people who provide the salaries for civil employees, but it is recognizing also its obligation to employees themselves by setting before them standards which will tend to make them more useful citizens in every relation they may now or hereafter hold either to the State or in private employment.

Finally, by the adoption of these service record rules there has been inaugurated a significant advance in the application of the principle of demonstrated merit in our Civil Service and that that principle has been more clearly applied in promotions as required by the Constitution of the State.

#### DECISIONS AND RULINGS

During the existence of the Civil Service Commission it has had to decide many questions involving an interpretation of the Civil Service law and rules.

By authority given by chapter 571, Laws of 1918, we have caused to be prepared a code or digest of decisions and rulings which gives an orderly and systematic presentation of the same from May 23, 1883, to January 1, 1919, based on the law and rules in force at the time the action was taken.

The compilation has been prepared by John C. Birdseye, an employee of the Commission for thirty-five years, and for more than eighteen years its secretary. Mr. Birdseye's long, devoted and intelligent service gave him special qualifications for the work involved. The pamphlet is now being printed for free distribution to appointing officers, heads of departments and institutions, and to other persons interested.

#### MUNICIPAL CIVIL SERVICE RULES

There are fifty-nine cities in the State, all with local civil service commissions working under special civil service rules, except the city of Sherrill. These rules to a large extent are identical or similar, but there is still a wide divergence in the classification of positions. These apparent inconsistencies are explained by local conditions involving questions of salaries and duties. Constant supervision of the administration of the Civil Service law and rules by the Municipal Civil Service Commissions, is considered most important, as in this way the local commissions are helped in their work, and the State Commission informed as to the way in which the law and rules are being observed. The commissioners and their representatives were able to visit and confer with the commissions in thirty-nine cities during the past year. In each case a written report of the inspection was rendered and copies sent to the respective mayors and commissions, attention being called to any recommendations made. The cities visited are:

Auburn	Albany	Amsterdam
Beacon	Binghamton	Canandaigua
Cohoes	Corning	Elmira
Fulton	Geneva	Glen Cove
Glens Falls	Gloversville	Hornell
Hudson	Ithaca	Johnstown
Kingston	Little Falls	Mechanicville
Middletown	Mount Vernon	Newburg
New Rochelle	Norwich	Olean
Oneonta	Plattsburg	Port Jarvis
Poughkeepsie	Rensselaer	Salamanca
Saratoga Springs	Schenectady	Troy
Watervliet	White Plains	Yonkers

In general, the Municipal Civil Service Commissions have advanced in the application of the law and rules, but in a number of the smaller cities considerable difficulty was experienced in securing a sufficient number of applicants for competitive places. The rules for a number of cities were amended to meet new conditions, but in every case the competitive system of appointment was continued or extended whenever possible.

An entire revision was made of the Civil Service rules for the cities of Kingston, Middletown, Rensselaer, and Yonkers. Rules for the latest city, Glen Cove, were approved April 11, 1918.

### CIVIL SERVICE COMMISSION

#### *Middletown*

On January 31, 1918, a representative of this Commission visited the city of Middletown and had a conference with the Municipal Civil Service Commissioners and others with reference to the administration of the Civil Service law and rules. At this conference there were present Civil Service Commissioners McBair and Raasch; Fred J. Herres, President of the Common Council; Corporation Counsel Servin; Rev. E. Van Dyke Wight, Miss Florence Davidge and Miss Florence M. Nearing, representing a citizens' committee interested in the administration of matters relating to public charities.

A report concerning this conference was duly submitted to us with certain recommendations. As the result thereof the members of the Municipal Civil Service Commission were cited to appear before the State Commission in New York February 21st, at which time they were given an opportunity to make a personal explanation and to file papers in opposition to amendments to the classification of the service of the city of Middletown which the State Commission deemed it advisable to make. At this meeting the Mayor and Corporation Counsel addressed the Commission and filed papers in opposition to certain changes proposed. Miss Davidge, Dr. Wight and a Mr. Millsbaugh were also present and favored the changes, particularly classification in the competitive class of the position of Commissioner of Charities. The Mayor and Corporation Counsel agreed to submit for consideration of the State Commission, revised rules and classifi-

cation of the Civil Service of the city of Middletown on or before March 16, 1918, and it was, therefore, directed that the matter of classification of the positions mentioned in the citation of the State Commission, be deferred.

The revised rules for the city of Middletown as adopted by the Municipal Commission and approved by the Mayor March 21, 1918, were considered at meeting of the State Commission held March 21, 1918. On motion the rules were approved as presented, except in so far as they related to the inclusion in the unclassified service of the positions of Commissioner of Public Works and Commissioner of Charities; and inclusion in the exempt class of the position of cashier or assistant to the city clerk and collector. The State Commission was of the opinion that under the terms of the present charter of the city of Middletown, the Commissioner of Public Works and the Commissioner of Charities are not strictly heads of departments by virtue of section 9 of the Civil Service Law. The State Commission was also of the opinion that as the position of city clerk and collector is in the competitive class, it would be inconsistent to classify one of his subordinates as exempt. For these reasons the classification proposed for the positions named was not approved, and it was recommended that the places be included in the competitive class.

No further proceedings were taken in this connection until June 1st, when a representative of the department, by direction of the Commission, again visited Middletown to ascertain what steps, if any, had been taken to comply with our suggestions. An examination of the records of the local commission showed that it had taken no action of any kind concerning the positions named. It was contended by the local authorities that the Commissioner of Charities and the Commissioner of Public Works are heads of their respective departments, and, therefore, in the unclassified service, and that action by the State Commission as to the classification of these places is not within its jurisdiction. It was further stated that the position of cashier or assistant to the city clerk and collector should be in the exempt class, and that the State Commission has no right to hold that the position should be competitive. It was learned that the city

clerk was paying the salaries of the Commissioner of Charities, Commissioner of Public Works and cashier or assistant in his office, without the certification of the Municipal Civil Service Commission, and that no litigation was contemplated by the municipal authorities to determine the legality of the classification as competitive by the State Commission of the positions named.

At a meeting of the Commission held June 7th, a further report concerning the situation in relation to the administration of the Civil Service law and rules of the city of Middletown was received, together with recommendations as to litigation thought desirable to determine the several questions involved. On motion the report was received and ordered transmitted to the Attorney-General, with request that he institute on behalf of the Commission such proceedings as he might consider necessary and advisable to bring about a settlement of the controversy as to the proper classification of the positions of Commissioner of Public Works, Commissioner of Charities, and clerk or assistant to the city clerk and collector. As far as we are informed the Attorney-General has not acted in this connection.

#### LABORERS — STATE COLLEGE FOR TEACHERS

On May 22, the Commission gave a hearing on the complaint of Thomas F. McGraw, as to the employment of laborers at the State College for Teachers, Albany, N. Y. Upon the statement submitted, it appears that persons were employed as "laborer and watchman," who devoted at least three-fourths of their time for seven months of the year to work which properly belonged to a competitive employee.

The complaint was sustained and action taken to require that appointments be made to the places in question as the result of competitive examination.

#### CHAPTER 211, LAWS OF 1918

This act provides for separate eligible lists for persons in federal military, naval or marine service, and reads as follows:

"All persons whose names appear upon any eligible list made pursuant to this article and who have entered or shall hereafter enter or shall obligate themselves to enter the

federal military, naval or marine service or who shall be required by draft or conscription to enter the federal service in any capacity and who by reason thereof shall be unable to accept appointments made from names appearing upon any such list shall be entitled to have their names continued and placed on a separate eligible list for the same position resulting from an open competitive examination and names from such separate list shall be certified for appointment at such times as such service shall cease before certification is made from any subsequent eligible list with the same force and effect as if such persons had been so certified before entering federal service as aforesaid. The eligibility for certificate for appointment of a person whose name appears on such eligible list entitled as herein provided shall continue for a period of one year from the date of his honorable discharge from such service."

Considerable difficulty has already been encountered in administering this statute. We are unable frequently to obtain a clear record showing that an eligible could not accept an appointment on account of absence in the military or naval service. Appointing officers report many cases where they have been unable to obtain information as to the wishes regarding appointment of persons away from home on military duty. We are inclined to give these candidates the benefit of any doubt, and when an appointment is made of a person whose standing on the list is lower than that of one who is absent on war service, upon a proper statement, to consider that the absentee was unable to accept for that reason. In all cases a complete record is essential in order that the law may be properly administered.

In applying this law, a question arose as to the interpretation of its provisions and the Attorney-General was asked for his opinion on the following:

Inquiry: What persons are entitled to have their names placed upon the special eligible lists provided by section 22-a of the Civil Service Law?

The Attorney-General has given the following opinion:

"Section 22-a of the Civil Service Law as added by chapter 211 of the Laws of 1918 provides that all persons whose

names appear upon any eligible list and who enter or obligate themselves to enter military service and who '*by reason thereof* shall be unable to accept appointments made from names appearing upon any such list' shall be entitled to be placed upon a special list, etc.

This does not mean that every man who underwent military obligations while his name was on a list is entitled to go on a special list for a year. It means that a man whose name was on a list and who was unable to accept appointments because of his military obligations, is protected. But it does not contemplate protecting a man who would not have had an opportunity to accept or decline an appointment, had he not entered military service. If a man were so far down on a list that his name was not reached for certification during his absence, or if he were on a list from which no appointments were made or certifications requested, during his absence, he would not have lost any opportunity nor suffered any prejudice because of being away, even if section 22-a had not been enacted. The purpose of this section, like that of section 245 of the Military Law, is to protect civil service employees or candidates, who enter military service, against prejudice — not to give them advantages they would not have enjoyed had they remained at home.

By section 22-a a man who incurs military obligations and *by reason thereof* is unable to accept appointments, is entitled to protection; but only when his inability to accept is *by reason of* his military obligations — *not* when his inability to accept was caused by the fact that he was not certified or eligible to certification, or by the fact that there was no appointment to be accepted.

The special list provided for should consist of names only of persons who were eligible to certification and were not certified because absent or who were eligible to appointment and declined appointment because of military obligations."

#### LEGISLATION

The Commission renews its recommendations of last year regarding amendments to the Civil Service Law, as follows:

a. Amend section 11 by striking out the mandatory requirement for printing in the annual report of the State Commission all rules adopted for cities. Under this provision we are obliged to print rules for all new cities, as well as the revised rules for other cities, approved during the year. Compliance with this section of the law largely increases our printing account, and it is of no value to any one as the rules are published by each local commission for general distribution. Essential amendments to municipal rules would be printed, we assume, without statutory direction.

b. Revision of section 11 so as to prescribe three as the number of members of a municipal civil service commission, with a definite term of three years arranged so that the term of one commissioner shall expire on the 31st of December of each year. Experience would indicate that a fixed term of office, with overlapping periods, is most likely to give good results.

c. A new section making it a misdemeanor for a candidate in a civil service examination, conducted by the State or a Municipal Commission, to intentionally accept or use any information or assistance imparted by another candidate, or any other person, or to use, attempt to use or have in his possession during the examination any book, paper or data, which would assist in any way in answering the examination questions. The present law makes it a misdemeanor for one candidate to aid another candidate, but it does not reach the person who wilfully cheats by copying from the papers of another, or from papers which have been smuggled into the place of examination.

d. Changing the time for filing annual reports by municipal civil service commissions from January 15th to February 1st. This extension of time will be helpful to the local commissions and will in no way delay our work in this respect.

#### CONCLUSION

The Commission desires to express appreciation of the spirit in which its work has been received by appointing officers, and the co-operation of municipal commissions, in its efforts to make the system which they together administer a practical instrument for securing efficient conduct of the public business. It is under

particular obligation to the Attorney-General, and his deputies, for advice and assistance, and to representatives of the Civil Service Reform Association.

Accompanying this report will be found the civil list, the chief examiner's report, the usual statistics concerning examinations, and other matters which are required by law to be published.

Respectfully submitted,

JOHN C. CLARK,  
WILLARD D. MCKINSTRY,  
WILLIAM GORHAM RICE,

*State Civil Service Commission.*

## REPORT OF THE CHIEF EXAMINER

To the Commission:

The Chief Examiner herewith submits a report of the work done under his supervision during the year ended December 31, 1918.

During the calendar year 1918, there were 17,355 applications for examination filed, and 14,390 persons actually examined as shown by the following table:

KIND OF EXAMINATION	Number of examinations	Number of candidates
1. Open competitive .....	394	7,193
2. Promotion competitive .....	150	1,182
3. Promotion non-competitive .....		159
4. Provisional, rule VIII — paragraph 4 .....		660
5. Non-competitive, rule VIII — paragraph 10 .....		702
6. Examinations for non-competitive positions rated at Albany .....		671
7. Examinations for non-competitive positions rated by local boards in hospitals and institutions, etc.....		3,823
8. Total number of persons examined .....		14,390
9. Number of applicants who failed to appear for examination .....		1,502
10. Number of applications rejected .....		1,463
Total number of applicants.....		17,355

The following table gives the above statistics in another form and in greater detail:

KIND OF EXAMINATION	Number of examinations held	NUMBER OF APPLICANTS				
		Passed	Failed	Absent	Rejected	Total
1. Open competitive.....	394	5,068	2,125	1,420	1,437	10,050

Total applicants.....	17,355	20,964	23,686	29,893	22,000

\* No statistics kept.

The most noticeable fact disclosed by the above table is steady decrease since 1915 in the number examined in open competitive examinations. The decrease is no doubt largely, if entirely, due to conditions brought about by the war.

*Number of Competitive Examinations Held*

1914-1918

	1918	1917	1916	1915	1914

*Provisional Examinations*

The following table shows the number of persons examined competitively for provisional appointment under Rule VIII, paragraph 4, during the years 1912 to 1918 inclusive.

	Number appointed	Increase in number	Increase per cent
1912.....	311	67

1918.....	660	177	

\* Decrease.

*Examinations under Rule VIII, Section 10*

Civil Service Rule VIII, section 10, reads as follows:

“Whenever a vacancy exists in a position in the competitive class, and an open competitive examination duly advertised does not result in an eligible list of at least three names for such position, the head of the office may nominate a person to the commission for non-competitive examination, and if such nominee shall be certified by the commission as qualified, he may be appointed to fill such vacancy. In case there is a person serving in such a position under provisional examination, and no one applies to compete with him in an open competitive examination duly advertised, the provisional appointment of such person may be made permanent.”

The following table shows the number of persons qualified for such appointment during the last seven years.

	Number qualified	Increase in number	Increase per cent
1912 .....	40	.....	.....
1913 .....	64	24	60
1914 .....	36	*28	*44
1915 .....	27	*9	*25
1916 .....	21	*6	*22
1917 .....	156	135	156
1918 .....	571	415	376

\* Decrease.

The increase in the number of appointments under rule VIII, section 10, during the past two years, as shown in the preceding table, was due principally to the absorption of the available skilled labor supply into war activities and the consequent lack of competition in examinations. This increase was also due in some measure to the large number of appointments made to fill temporarily the places of those State employees who were called into the military service.

*Competitive Promotion Examinations*

During 1918 we examined 1,182 competitors in 150 promotion examinations, an average of about eight competitors per examination. In 66 examinations there were fewer than 4 competitors per examination thus practically eliminating the element of competition.

*Aid to Municipal Commissions*

Several of the municipal civil service commissions were, their request, given assistance by this office during the past in the matter of preparing questions and rating papers in connection with various examinations. The Chief Examiner is glad to render this aid, and he is very willing at any time to respond to any request from municipal commissions for assistance in this connection or in any other way in which he can service.

LACK OF SATISFACTORY COMPETITION

War conditions have accentuated the difficulty of securing applicants for State Civil Service positions. The lack of an appropriation for newspaper advertising has always made a problem of the matter of bringing examinations to the attention of people throughout the State, but even in New York city, where examinations are usually given considerable publicity by the press, the number of candidates during each of the past two years was only about 25 per cent of the number for the year 1916. Our country's call to service in the recent World War drew millions of men from all walks of life; people remaining at home had all they could do to keep the wheels of home industry turning; the ranks of our State Civil Service were depleted, and it was difficult, even impossible in some State activities, to maintain the necessary number of employees to keep the State's machinery running.

Advertisement of Civil Service examinations met with little response at a time when everyone's attention was centered upon the war. The Civil Service of the State, moreover, was placed

on a war basis, and war economies were introduced. employees in many offices cheerfully assumed extra duties to on the work until the boys at the front could return to positions. And now that the war is won, and the attenti people diverted again to civil life, a larger number of appl for State positions may be expected in the coming year.

The following table, showing preponderance of cand: examined in New York city and Albany over candidates where in statewide written competitive examinations, show need for an appropriation for a more extensive up advertising.

### ADVERTISING EXAMINATIONS

The need for effective advertising of examinations has never been so pressing as at present.

The only publications which give adequate public notice of our examinations are those which are published by parties who are interested in conducting courses of instruction or in selling books designed to assist candidates to prepare themselves for examinations; there are two such weekly periodicals published in New York City, but none elsewhere in the State. The dailies in Manhattan and Brooklyn conduct Civil Service columns and, no doubt, give as much space to such matters as can properly be afforded gratis.

Newspapers published in up-state cities and in the rural districts give little or no information about Civil Service matters notwithstanding our time-honored practice of sending broadcast throughout the State, newspaper notices of each general series of examinations.

What is the remedy? Undoubtedly the only remedy is for the legislature to provide an appropriation for newspaper advertising.\*

Examinations of general interest should be advertised suitably in at least two newspapers in every city of the State, and in a number of the papers in the districts outside of cities. Examinations for technical positions (such as medical, engineering, chemical, electrical, accounting, etc.) should be advertised in journals published in the interests of those technical lines of endeavor. In this way only can these examinations be brought to the attention of the public. There still remains, however, the problem of reaching the best qualified, for such are usually already employed and not looking for an opportunity of change. Probably the best avenue of approach to this class is by suitable advertising in special and technical publications.

#### NEEDS OF THE EXAMINATIONS DIVISION

In again reporting the needs of the examinations division as regards additional rooms, fixtures and employees, the Chief Examiner calls attention to the Second Report of the Senate Committee (the Horton Committee) on Civil Service, transmitted to the Legislature January 3, 1917, as follows:

*Personnel*, pp. 8, 19, 20, 29, 30, 31, 39. "The volume of work is altogether too large for the present personnel. \* \* \* The examining division is undermanned. \* \* \* The examining staff is underpaid. \* \* \* The examining force should be greatly strengthened. \* \* \* In the large examinations for clerical positions, the examining force is so inadequate that clerks and stenographers are pressed into service to rate such subjects as spelling and arithmetic. The rating of one examiner is not checked or reviewed by another examiner or by the Chief Examiner, except in rare instances. The rating made by one examiner is not checked by another. This is due to the fact that there is not sufficient force to do it. There must be at least one check on all original ratings, before the system is free from obvious criticism. \* \* \*

---

\*As already recommended in the Second Report of the Senate Committee on Civil Service transmitted to the Legislature January 3, 1917.

“The limitations of the staff demand a constant shifting from one assignment to another and at times a concentration of the entire force on one or two classes of work. \* \* \*

“The present staff is entirely inadequate even for the performance of the functions contemplated by the existing law and rules in the three following respects: Character investigation, departmental studies, and medical and physical examinations. \* \* \* Therefore any criticism of methods and standards of the Commission must be tempered by a consideration of all these facts and the statement that, on the limited appropriation available, it is impossible to introduce advanced methods in administration and high standards of examination.”

*Additional Rooms and Fixtures*, pp. 30 and 31. “The examining division has not adequate equipment or space for the proper conduct of its work. The files used for records, papers of candidates, etc., are without locks and not properly suited to the purpose for which they are used. There are not enough of them to contain the materials which it is necessary to file, many of the papers being packed in drawers. \* \* \* A separate room should be assigned to a custodian of papers, which should be given out to other employees only on definite orders signed by the Chief Examiner or one of his assistants, and every precaution taken to avoid any possibility of abuse. \* \* \* The lack of modern mechanical devices for doing computation is worthy of comment.”

In summarizing, it would seem unnecessary to make any additional statement in the matter, so well has the Senate Committee outlined the need for a sufficient number of well-paid employees, modern equipment and additional space.

The Chief Examiner's report for 1916 contains the following:

“If the work of the Civil Service Commission is to reach the standard of efficiency which its importance demands, it is essential that provision be made for the employment and retention of competent examiners, on substantially the same salary basis as those engaged in work of a similar grade in other departments.

“At present the examining work is much handicapped by insufficient and inconveniently arranged rooms. Nearly all of the work of rating papers is done in Room 605 on the sixth floor, while the other work of the division is done on the fourth floor. The resultant inconvenience and loss of time are, in the aggregate, a serious handicap.”

Present conditions are practically the same as in 1916.

Respectfully submitted,

H. N. SAXTON,

*Chief Examiner.*

Albany, January 31, 1919.

## NOTE

Extract from State Printing Law, Chapter 667, Laws of 1917:

“ If it shall be found that the report of any appointive state officer, department, commission, institution or board transmitted to the legislature or delivered to the printing board as herein provided cannot be printed within the appropriation made by the legislature therefor, such report shall be returned by the printing board to such state officer, department, commission, institution or board with a statement as to the quantity of matter which it will be necessary to exclude in order that such report may be printed within the appropriation made by the legislature.”

In order to comply with the foregoing provision, it has been necessary to exclude from this publication certain data which heretofore it has been the custom of the Commission to print.

### **Letchworth Village**

Resolved, That the application of Superintendent Little, Letchworth Village, for classification as non-competitive of the position of farm manager, salary \$1200 a year and maintenance, be and hereby is denied, as positions of this character are generally classified as competitive.

(July 2, 1918.)

### **Secretary of State**

Resolved, That the application of Secretary of State Hugo, for classification as exempt of two additional positions of cashier, Automobile Bureau, be and hereby is denied. It appearing from the correspondence and the records in the office of the Commission that there are now three exempt positions of cashier in the New York office, Automobile Bureau, it was the opinion of the Commission that the request for exemption of a fourth position of cashier in the New York office should be denied.

(July 2, 1918.)

### **State Commission for the Blind**

Resolved, That the application of the State Commission for the Blind for classification as exempt of the position of bookkeeper, be and hereby is denied, as the Commission feels that it cannot see its way clear to exempt the position from examination, as places of this character are usually competitive.

(July 3, 1918.)

### **Fiscal Supervisor of State Charities**

Resolved, That the application of Fiscal Supervisor of State Charities Utter for classification as exempt of the positions of confidential clerk \$1000 a year, and confidential inspector, \$2400 a year be, and hereby are denied on the information presented.

(July 3, 1918.)

### **Secretary of State**

Resolved, That the application of the Secretary of State for classification as exempt of the position of cashier in the Automobile Bureau, Albany office, salary \$900 a year, be and hereby is denied, as the Commission is of the opinion that it is practicable to fill the place as the result of competitive examination.

(July 10, 1918.)

### Department of Excise

Resolved, That the application of the Commissioner of Excise for classification as exempt of the position of watchman in the Brooklyn office of his department for a period from September 1, to October 31, 1918, be and hereby is denied as it is the opinion of the Commission that as the employment of the watchman is limited to the certificate issuing period, it would not be advisable to add another place to the Exempt Class.

(July 27, 1918.)

### State Commission on Feeble Minded

Resolved, That the application of Walter B. James, M. D., Chairman, State Commission on Feeble-Minded, for classification as exempt of the position of registrar in his department, be and hereby is denied, as the Commission is of the opinion that competitive examination for the place is not practicable.

(July 27, 1918.)

### Banking Department

Resolved, That the application of Superintendent of Banks George I. Skinner, for classification as exempt or non-competitive of one additional position of confidential examiner in his department, be and hereby is denied, as the Commission is not satisfied that the position in question is one that can not properly be filled as the result of examination, and in view of the fact that a new eligible list for the position of bank examiner has been recently established with due co-operation with the Banking Department.

(September 13, 1918.)

### State Comptroller

Resolved, That the application of the Comptroller for classification as exempt of the position of deputy transfer tax assistant, Surrogate's office, New York county, be and hereby is denied, no satisfactory reason having been shown that competitive examination for the place is not practicable.

(September 13, 1918.)

### State Food Commission

Resolved, That the application of the State Food Commission for classification in the Exempt Class of the position of assistant director of the Bureau of Conservation for the State outside of the city of New York, be and hereby is denied, as the Commission is of the opinion that the position should be competitive and that a special examination should be held.

(October 7, 1918.)

### County Auditor, Suffolk County

Resolved, That the application of County Auditor Corwin, Suffolk county, for classification as non-competitive of the position of jail physician be and hereby is denied, in view of the prevailing practice of the Commission to carry the position of jail physician in the Competitive Class.

(October 7, 1918.)

## DIGEST OF COURT DECISIONS

### Civil Service Law

#### *Appointment of One Standing Second on Eligible List — When Not an Infringement of the Letter of the Statute*

At the time of the enactment of chapter 628 of the Laws of 1917, by which "Riker's Island," theretofore used as a dumping ground, was made the location of a new correctional institution unlike any then existing in the city and called in the statute "The Municipal Farm of The City of New York," the position of warden at Riker's Island was vacant. The name of B, the only keeper under the existing rules with respect to promotion who had served a sufficient length of time to be entitled to take an examination for the position of head keeper or deputy warden, and who at the time was serving as a deputy warden of the Tombs prison, having been alone certified for appointment by the local civil service commission, B, at the suggestion of the commissioner of corrections, signed a declination of his appointment and said commissioner thereupon made a new requisition for the certification of additional names, explaining at length the nature of the duties of the new position and that a more correct title therefor would be superintendent, the title used in similar institutions in different parts of the country, and calling attention to the fact that the experience and other qualifications required for the examination given to establish an eligible list for superintendents of industries in the city were much greater than those required for warden of a particular institution of the department of correction. The local civil service commission thereupon certified a list of three names taken from the list of those eligible for appointment as superintendent of industries in the department of correction. *Held*, that the appointment of H, who stood second on the list, not only did not infringe the letter of the Civil Service Law but was in a conspicuous degree an observance of the spirit thereof. (*O'Reilly v. Lewis*, 105 Misc. Rep. 380.)

By chapter 211 of the Laws of 1918, section 22-a, which provides for a separate eligible list for persons in Federal military, naval or marine service, was added to the Civil Service Law.

### COHOES

#### *Exempt Fireman — Protection Against Removal Without Cause*

Section 22 of the Civil Service Law protects an exempt fireman against removal without cause from the office of commissioner of public safety of a municipality. Under section 62 of the charter of the city of Cohoes the mayor is vested with power to remove from office the commissioner of public safety, and where the written charges made by the mayor against said commissioner, who is an exempt fireman, consist of a recital of acts on his part concerning the propriety and legality of which there may be a difference of opinion, and a hearing of the charges before the mayor may or may not lead to the conclusion that there was misconduct on the part of relator, a permanent writ of prohibition will be denied and an order will be granted authorizing the mayor to proceed as if an alternative writ of prohibition had not issued. (*People ex rel. Kennedy v. Foley*, 104 Misc. Rep. 684.)

## MOUNT VERNON (CITY OF)

*Appointment of Police Sergeants from Patrolmen — Laws 1909, Chapter 476*

Under the charter of the city of Mount Vernon, as amended by Laws of 1909, chapter 476, the appointment of police sergeants from patrolmen is not at the pleasure of the commissioner so as to admit the argument that such appointees are free from the civil service provisions of the Constitution, the statutes and the rules prescribed by the city authorities the words "at pleasure" as used in said statute refer only to the demotion of police sergeants by the commissioner of police and do not mean that demotion may be made upon the mere caprice or whim of the commissioner. The duties of a police sergeant, even if they include such superintendence of the members of the force as requires a report of the performance of their various duties, do not necessarily "involve trust and confidence which are personal to the appointing officer," so that the tests of civil service applied to patrolmen cannot result in the indication of those who as sergeants will perform their whole duties. (People ex rel. Curtis v. Hogeboom, 185 App. Div. 777.)

## Municipal Civil Service Commission

*No Power to Annul Eligible List for Promotion from Position of Nurse to Supervising Nurse*

Where a municipal civil service commission has promulgated a list of eligibles for promotion it has no power to annul such action. That upon an examination held under the direction of a municipal civil service commission, for promotion from the position of nurse to that of supervising nurse, acting supervising nurses were permitted to rate themselves and other nurses as to previous experience, did not justify a revocation of the list of eligibles promulgated after said examination, where the commission before promulgating the list refused to cancel the examination on such ground, it appearing that said ratings, which were merely tentative, were subsequently reviewed by three separate bodies. The fact that several nurses at the top of the list voluntarily waived their precedence in favor of an acting supervising nurse so that she might retain her position could not have the effect of annulling the list previously established. A division of the list into two classes, one relating to child hygiene, the other to preventable diseases, with the result that a nurse far down the general list might nevertheless have a higher rating in one division and thus receive an appointment in advance of a nurse outranking her on the general list, finds neither warrant in any statute nor in the commission's own regulations. (People ex rel. Finnegan v. McBride, 104 Misc. Rep. 153.) Upon affirming the order of the Special Term granting relator's motion for a peremptory writ of mandamus, the court (185 App. Div. 482), said: "Such an order as the one in this case was approved in People ex rel. Fowler v. Markowitz, 175 App. Div. 710, 713; affd., 220 N. Y. 669."

## State Department of Excise

*Special Agent — Doubt as to Cause of Removal*

The order for an alternative writ of mandamus granted in People ex rel. Cahill v. Green, 103 Misc. Rep. 717, upon the application of relator, an

exempt fireman, for reinstatement as a special agent in the State Department of Excise was unanimously affirmed (182 App. Div. 903) upon the opinion of Chester J., at Special Term wherein he says: "Because of the doubt thrown upon the *cause* of removal by reason of the alleged oral statement claimed to have been made to the petitioner by the defendant it seems to me that a proper case is presented for an alternative writ, in order that the real facts may be ascertained, before the court is called upon to apply any measure of relief."

YONKERS (CITY OF)

*Removal of Veteran Fireman from Position of Probation Officer Must be on Charges*

Where a veteran volunteer fireman has been appointed to the position of chief probation officer of the court of special sessions in the city of Yonkers, as said position is classified in the competitive class by the municipal civil service commission with the approval of the mayor and of the State Civil Service Commission, said probation officer cannot be removed without charges and without a hearing at the pleasure of the city judge. (People ex rel. Garrity v. Walsh, 181 App. Div. 118.)

## OPINION OF ATTORNEY-GENERAL

### Civil Service Law, § 9 — Classified and Unclassified Service — Poundmaster

The poundmaster of the city of Mount Vernon is not the head of a department of government but is in the classified civil service of the city.

#### STATEMENT

The office of poundmaster in the city of Mount Vernon, for many years classified by the Municipal Civil Service Commission, with the approval of the State Civil Service Commission, in the non-competitive class, was the subject of a resolution of the Municipal Civil Service Commission, on March 25, 1918, which provides:

“Resolved, That the position of poundmaster, now classed under the Rules of the Municipal Civil Service Commission of the City of Mount Vernon, New York, in the noncompetitive class, be changed so that the said position shall be in the unclassified service for the reason that pursuant to section 12, article 2, of the Charter of the City of Mount Vernon, enacted March 22, 1892, said position was made an appointive office at \$500 per annum and the incumbent thereof is the head of the department.”

#### INQUIRY

Was this resolution proper, valid or effective?

#### OPINION

I am satisfied that the Legislature in enacting section 9 of the Civil Service Law (originally enacted as section 8 of chapter 370 of the Laws of 1899) and providing therein that “the head or heads of any department of the government” should be in the unclassified service had no intention of keeping such positions as poundmaster out of the scope of the civil service examination system.

Section 9 of the Civil Service Law provides that certain officers, including “the head or heads of any department of the government,” shall be in the unclassified service and that all officers not enumerated as in the unclassified service shall be in the classified service. Appointments in the classified service must be made in accordance with the provisions of the Civil Service Law and the rules promulgated thereunder and salaries may only be paid to

persons in the classified service after proper certification by the Civil Service Commission under section 20 of the Civil Service Law.

The original Civil Service Law (chapter 354 of the Laws of 1883) provided in section 7 that certain State offices should not be subject to its operation and in section 8 that employees in certain city departments should not be subject to its general provisions. After amendments by chapter 681 of the Laws of 1894, section 1, and chapter 186 of the Laws of 1898, section 1, this part of those sections of the original statute was rephrased and became section 8 of the consolidated Civil Service Law (chapter 370 of the Laws of 1899); and it was in this consolidation for the first time that the phrase "the head or heads of any department of the government" was used in defining a group of positions or offices which were excepted from the operation of the Civil Service Law.

The Constitution provides (article V, section 9) that appointments and promotions in the civil service of the State, and of all the civil divisions thereof, including cities and villages, shall be made according to merit and fitness to be ascertained, so far as practicable by examinations, which, so far as practicable, shall be competitive. Offices and positions in the unclassified service fall into two classes: (a) those in which examination as a basis for appointment is impracticable and (b) those in which the examination is provided for under the Education Law rather than under the Civil Service Law. The Legislature has regarded examination as impracticable as a basis for selection of the officers in the first group, including "the head or heads of any department of the government." The reason is found in the importance of the offices. The incumbents should be selected because of their well-known ability and responsibility and because their appointing officers are held by the electorate responsible for their acts.

In a city it is obvious that the heads of such departments as the department of public safety, the department of public works, etc., hold positions of vital importance to the welfare of the community and for their behavior in office, including the appointment of subordinates, the mayor who appoints them is held responsible by the people and his power of appointment should be unrestricted

by any requirement for examination; but it is also obvious that the same is not true of a poundkeeper.

The charter of the city of Mount Vernon gives a list of officers to be appointed by the mayor (Laws of 1911, chapter 82, section 12). They are commissioner of public works, corporation counsel, city clerk, fire commissioner, commissioner of charities, health officer, one constable for each ward and the poundmaster. The fact that these are all mentioned in the same section or that they are all appointed by the mayor does not put them all in the same branch of the civil service. It is obvious that the fire commissioner is the head of a department. It is also obvious that a constable is not the head of a department and I think it is almost as obvious that the poundmaster is not the head of a department.

I think "a department of the government" is meant by the Legislature to indicate one of the important branches in which there are under the "head" a number of subordinate officers and employees. In cities the police department and fire department are obvious examples but I do not think that every independent officer who does not happen to be subordinate to any other officer is by reason of his independence the head of a department of the government.

Although the phrase "head of a department" was first used in the list of positions in the unclassified service with the consolidation of 1899, the phrase "head of a department" appeared in other parts of the Civil Service Law considerably earlier, particularly in those parts of the statute forbidding political influence over subordinates. In one of the acts I find the phrase "no head of a department or other appointing officer" and it seems to me that this phrase gives us the key to what was in the mind of the Legislature in putting heads of departments in the unclassified service. The heads of departments, as the Legislature uses the phrase, are "appointing officers" and because of their power of appointment, the ability to exercise which is obviously not susceptible of test by examination, they have been placed in the unclassified service. This power of appointment rather than independence of action is really what justifies placing the head of a department properly in the unclassified service; and consequently by his power of appointment rather than by his independence of

action must we judge whether a certain officer is or is not "the head of a department of the government" within the meaning of the phrase as found in section 9 of the Civil Service Law.

The poundmaster of the city of Mount Vernon has no power of appointment. The pound is not a department of the government and he is not at the *head* of anything. He is merely an officer appointed by the mayor and acting independently of any superior officer, subject to control only by the mayor's power of removal. It is perfectly clear to me that the office of poundmaster is in the classified service under section 9 of the Civil Service Law and that the Municipal Civil Service Commission had no power to adopt the resolution quoted above and the resolution should be disregarded.
